

## Rusty's Heirloom Tomatoes – 2022 Tomato Plants for Sale

Ken Cook, [kcook@gsinet.net](mailto:kcook@gsinet.net), 240 Stark Highway North, Dunbarton, NH 03046, 603-774-7775

### Belaya Vishnya (White Cherry) (New for 2022!) 😊😊😊 Ukraine

Outstanding rare Ukrainian tomato. Semi-indeterminate (4 – 4½ feet) regular-leaf plant produces creamy-white, blush pink 9 – 13 oz. ox-heart-shaped dense, fleshy fruit having a delicate sweetish, pleasant taste with hints of cherry. Plants are productive and quite disease resistant. Fruits are lemon-white with pink tips, grow in clusters, and do not crack with sweetish fragrant pulp, no acidity, with small seed chambers. Just mouth-watering and memorable and versatile having many uses in the kitchen. A real stunner! 75 – 80 days.

### Black Krim (New for 2022!) 😊😊😊 Ukraine

(Aka Black Crimson, Black Crimea) from the Black Sea which is the only natural boundary of Ukraine. The prolific regular-leaf indeterminate plant produces purple-black-brown thick skinned fruits with flattened globes average 8 - 12 oz., highly flavorful with rich, superbly sweet, smoky, earthy flavor that lingers on the tongue. Flesh is a beautiful dusky pink with deep, rich-red / mahogany interior with excellent complex flavors, sweet with a lingering salty umami smoky quality common in black tomatoes. Fresh eating, sandwiches, caprese salads, juicing, sauces. 80 – 85 days

### Bulgarian Miracle (New for 2022!) 😊😊😊 Bulgaria

A beautiful giant tomato with vivid dark pink-crimson flesh that no tomato lover could possibly resist. Indeterminate, regular leaf plant are very productive production 1+ plus pound tomatoes with great sweet heirloom flavor even with our often cool summers. Flesh is dense, richly flavored with a silky texture, wonderful sugar to acid ratio and multi-purpose: great for fresh eating, cooking/sauce, salsas, salads, sandwiches or just sliced with a little sea salt. Yum! Massive fruits having excellent flavor and texture, sugary pulp, resist cracking, marvelous aroma. 80 – 85 days

### Cosmonaut Volkov (New for 2022!) 😊😊😊 Ukraine

A Ukrainian heirloom named by Russian space engineer / gardener, Mikhailovich Maslov, who named the heirloom tomato from his family garden after his comrade Vladislav Volkov, a Russian astronaut, who died while returning from the first visit to the Earth's first space station. Semi-indeterminate, grows to 4 – 5', regular-leaf sturdy, productive, disease and weather tolerant plants produce deep red 10 – 16 oz. flattened oblate fruits that grow in 3 - 5 clusters. Award-winning, great fleshy texture, balance of sweetness & acidity, juicy, rich and full-bodied. Large luscious beefsteaks that beg to be eaten, unsurpassed old-fashioned super rich flavor. Great for fresh eating, sandwiches, sauces, canning, roasting. 70 – 75 days.

### Diva de Deva (New for 2022!) 😊😊😊 Romania

Family name from the Romanian region of Virgo, an old heirloom grown near Jungfrau. Indeterminate, regular-leaf plants produce large amounts of crimson raspberry red 10 – 15 oz. flat-oblate tomatoes with slightly ribbed shoulders that grow in large clusters. Flesh is dense, richly flavored with a silky texture, wonderful sugar to acid ratio and multi-purpose: great for fresh eating, cooking / sauce, salsas, salads, sandwiches or just sliced with a little sea salt. Yum! Fruit have excellent flavor and texture and resist cracking. All around multi-purpose excellent tomato, good production and disease resistance. 70 – 80 days

### Gigant from Posavje (New for 2022!) 😊😊😊 Slovenia

An old heirloom from the historical Posavje wine region of lower Carniola in southeast Slovenia near the end of the Sava river valley. Indeterminate, regular leaf plants produce large gorgeous red fruits weighing 10 – 15 oz. flattened-rounded shape beefsteak type with dense non-cracking skin. Fruits are juicy with tender flesh, balanced taste, great aroma, sweetness with no after taste. Super yielding plants bears fruit for a long time until the end on the season. Multi-purpose variety eaten fresh, sandwiches, canning, juicing, sauces. Great taste, resistant to many common diseases. Mid-season, 75 – 80 days.

### **Gogosha (New for 2022!)** 😊😊😊 **Ukraine**

Tanya Gogosha brought her grandmother's family heirloom, (grown in Ternipal, Ukraine since the late 1890's), to New York in the 1980's when she was a student. Very rare. Indeterminate potato-leaf plants are super productive of 9 -14 oz. fleshy raspberry-pink flattened, delicious, sweet tasting beefsteak with exquisite aroma. Extremely dense, juicy beef flesh, small cells with few seeds, exceptional flavor. Very tolerant to adverse weather conditions and diseases with our unpredictable weather. Salads, canning, juicing, sauce/salsa/roasting, sandwiches. 80 – 85 days.

### **Hourma (New for 2022!)** 😊😊😊 **Ukraine.**

Ukrainian heirloom with high carotene nutrient content and tetra-cis-lycopene having good bioavailability when eaten fresh. Incredible tasting 5 - 10 oz. slightly flattened oblate beefsteak are meaty, juicy and deliciously sweet with rich flavor that melts in your mouth. Fruit is deep orange, thin-skinned, fantastic sweet, tangy flavor with bright peach-orange flesh that shines as brilliant as gold. Jewel-like appearance suits it well to a multi-colored caprese salad, fresh eating, sandwiches or unique orange sauces. **Regular leaf, semi-indeterminate plant grows 3 ½ to 4 feet.** 75 days

### **Hungarian Heart (New for 2022!)** 😊😊😊 **Hungry**

Brilliant reddish-pink luscious fruits weighing 10-16 oz. are firm and meaty like all ox-heart types—great for fresh eating, canning, sandwiches, paste, or making fresh roasted tomato sauce. The crack-resistant fruits have few seeds and very little cores - superb rich tasting, sweet, excellent flavor and solid flesh across each hefty slice! Indeterminate regular leaf plants bear heavily all season long. Heirloom from a village 20 miles outside of Budapest, Hungary around 1900. 80 days

### **Liften Yellow USA**

An exceptionally beautiful, large 16 – 24 oz. beefsteak, with interior shades of orange, pink and red with a delicious sweet flavor and a hint of citrus. Plants did very well in the hot weather and diseases were never a threat to them. Golden yellow beefsteaks' exterior are colored with red stripes that turn into a ruby blush on the bottom of the golden fruit. Flavor is sweet and rich and harvests are abundant. Perfect for fresh eating, sauces, BLT sandwiches, caprese salads, great for cooking and sweet orange sauce. Indeterminate, Regular leaf, 80 Days

### **Lucky Tiger USA**

This tomato is the BOMB! Fruits are very versatile - perfect for salsas, jams, jellies, drying and no better way to have them freshly picked and eaten! Indeterminate, tall, regular-leaf vines are very productive and bushy. Fruits are 1 ½ - 2 oz. & about 2" long, greenish pink, bi color - a subtle orange / green striped color with orange flesh inside. The fruits have excellent sweet flavor and taste with complex tropical notes. The fruits will hold onto the vine for an extended growing period without cracking and a long-shelf life in the kitchen. You will snack on these all day long. 70 days

### **Magnum Beefsteak USA**

The large dark red 12 – 20 Oz. meaty beefsteak fruits have luscious, creamy, dense sugary full tomato flavor that rivals Brandywine. Overall, its flavors are exceptionally rich, Incredible complex luscious flavor, very sweet and succulent, making them perfect for slicing / fresh eating, outstanding for processing, canning, juicing, sauces, soups and fabulous BLTs. Old heirloom variety that was preserved, grown and distributed by the late Chuck Wyatt. Highly productive and good disease resistance. Indeterminate, Regular-leaf. 80+ Days

### **Miracle of the Earth** 🇷🇺

Miracle of the Earth is the result of the famous Siberian breeder Vladimir Nikolaevich Dederko in Novosibirsk, located in the southwestern part of Siberia on the banks of the Ob River. The delicious raspberry-pink heart-shaped fruits weigh 9 – 13 oz. The fruits are fleshy, juicy and dense, very sweet and aromatic. Siberian-breed tomatoes, are relatively early, **semi-indeterminate (4–5 feet)**, tolerant to various weather conditions, super productive, pests and disease resistant with superb texture, taste and flavor. Generally, fruits grow in clusters, non-cracking, having long vine-hang time and long kitchen-self life. Great taste, beautiful, multi-use, an outstanding flavor bomb. 75 days.

### **Olena Ukrainian** (New for 2022!) 😊😊😊 🇺🇦

Family heirloom from Olena Warshova, Odessa, Ukraine. Indeterminate, potato-leaf plants produce large, fleshy slightly ribbed blemish-free pink fruit weighing 12 – 16 oz. Firm, dense pulp with complex intense sweetness, flavor and low acidity. Non-cracking, disease resistant, robust plants will produce several clusters of 2 – 4 fruits well into the fall and killed by frost. Multi-purpose fruits for sandwiches, thick aromatic sauce, canning and fresh eating. Strong staking is a must as it's a heavy producer. Flesh is dense, richly flavored with a silky texture, wonderful sugar to acid ratio and multi-purpose. A great tomato that will certainly win you over. 80 – 85 days.

### **Purple Sugar** (New for 2022!) 😊😊😊 🇩🇪

Developed by German master breeder Reinhard Kraft. This is one of those WOW memorable cherry tomatoes that will win you over in a heartbeat. Beats all the competition – Black Cherry, Chocolate Cherry, Rosella, Matt's Black, many others. Massive productive regular-leaf plants can be over 6' tall, producing loads of purple candied 1 oz. fruit in clusters of 10 – 15 or more. Delicious, round, fruity, chocolate brown, honeyed, crispy and taste like sugar-candy that you can't resist, and a lot will not make it out of the garden. Great snacking, fresh eating, salads, canning, dehydrating, tomato preserves. Intensely sweet, mind-blowing flavor. 70 - 75 days

### **Rebel Starfighter Prime.** (New for 2022!) 😊😊😊 🇺🇸

Starfighter Prime is a once in a lifetime exceptional masterful piece of breeding by a hobbyist named Russ Crowe (a Star Wars fan) of Fairfax, Vermont made by crossing Xanadu Picasso with Reinhart's Green Heart. Heart-shaped unique indigo striped fruit exhibits a kaleidoscope of dark pink with metallic green-black radial stripes on the exterior and brick-red mahogany / maroon interior. Indeterminate regular-leaf plants produce fleshy, dense 8 - 12 oz. excellent sweetish fruits with a long-lasting savory flavor. Weather tolerant, non-cracking, few seed. Multi-use in salad, soup, cooking, sauces, casseroles, sandwiches, pasta. Delicious sweet taste with fruity notes. Truly one of a kind. A real Superstar. The WOW factor! 75 days

### **Rosa de Zarautz** 🇪🇸

Rosa de Zarautz tomato comes from an old fishing village of Zarautz located on the Cantabrian Sea Coast in northern Spain. The indeterminate, regular-leaved plants produce light rosy-pink, heart-shaped, and conical / elongated fruits weighing 6 to 9 oz. Fruits have fleshy, meaty, dense meat, great texture and thin skins but won't crack. The taste is sweet, concentrated, aromatic and complex. Plant is very productive, disease resistant yielding fruits with few seeds: perfect paste tomato for sauces, canning and salsa. An old heirloom Basque variety. 75 – 80 days

### **Rosy Cheeks** (New for 2022!) 😊😊😊 🇺🇸

Rosy Cheeks was developed by Ellie of Bunny Hop Seeds (Florida) from a "sister line" Lumos from an accidental cross between Coyote and Rose Quartz Multiflora by an ambitious little bee. Miracles happen in nature and this is one of them. So named as it reminded Ellie of a little girl's rosy cheeks from cold weather. The regular-leaf plant is big, healthy and not bothered by damp weather, pests or disease. Production is massive and continuous throughout the long season. Very high sugar levels with Brix level 8+ in ordinary field grown conditions. Raspberry pink 1 oz. gems with exceptional taste and flavor. A great flavorful lip-smacking cherry for snacking, salads and drying. A mouth-watering flavor bomb. 70-75 days

### **Sandul Moldovan** 🇲🇴

Outstanding large 10 – 16 oz. pink sweet beefsteak with slightly flattened (oblate) fruit and some shoulder ribbing. What makes Sandul Moldovan so special is exceptional complex flavor, high sugar - low acid balance, its dense, meaty and creamy flesh with exquisite sweet wine flavor and the intense aroma of old-fashioned tomatoes. Heirloom variety from Moldova brought by the Sandul family when they immigrated to US in early 1990's. Regular-leaf, indeterminate plants are very productive into late summer. A fabulous multi-purpose tasty tomato! 80 days

### **Sarnowski Polish Paste** 🇵🇱

Super productive indeterminate regular-leaf plants have droopy foliage, 6 - 10 oz. fruit - dense, meaty, solid almost seedless flesh and sometimes variable in shape (large plum, double plum, long sausages) with a nipple end. If you like process tomatoes, make sauces or can lots of tomatoes, this would be a great variety to grow. Flavor is superior to other paste / processing types - intense, sweet and rich. Great for fresh eating also. Polish heirloom from Sarnow River area brought to Schenectady, NY in the 1890's. 75 days.

### **Sevruga** (New for 2022!) 😊😊😊 🇺🇦

**Semi-indeterminant plants are 4 – 4 ½ feet tall.** Regular-leaf plants with great production of beautiful heart shaped shiny crimson-pink fruits with few seeds weighing 12 – 15 oz. with a simply magnificent taste and flavor with a slight tangy aftertaste that just melts in your mouth. Resistant to adverse weather conditions, drought, high humidity, low temperatures for successful summer and early fall production of magnificent great tasting fruits. Dense, juicy and fleshy beef meat, magnificent flavor and rich aroma. Great for fresh eating, sauces, salsa, juicing. High productivity, large-fruited, great fruit flavor. Wonderful variety. 75 – 80 days.

### **Sun Sugar** (New for 2022!) 😊😊😊 🇺🇸

Indeterminate regular-leaf plant that can easily exceed 6' pumps out massive amounts of ½ oz. round golden orange absolutely scrumptious delicious cherry tomatoes. There are several cherry clusters packed along long continuous vines that will last long into the fall until killed by frost. Very early, extraordinary sugar sweet gourmet flavor, thin skin, non-cracking (unless excessive rain), disease resistant, superb texture, fruity taste and aroma. Unbeatable, absolute top-of-the-line, no competition in its class. You'll be eating more in your garden than on your table. Salads, snacking, drying, roasting. None greater, just superb. WOW 70 days

### **Vernissage Pink** (New for 2021) 😊😊😊 🇺🇦

Developed by the famous Ukrainian breeder Ruslan Doohov, premier Ukrainian breeder for decades of great tasting top-of-the-line tomatoes by crossing 'Stupice' and 'Kitaiskiy Barkhatnyi'. A "vernissage" is a private, special advance screening before a public exhibition. It's a celebration of the completion of a piece of artwork. Productive indeterminate regular-leaf plants produce prodigious amounts of 2 oz. round multihued pink & yellow striped fruits that grow in 4-6 clusters. Delicious, beautiful, thick skin, non-cracking, long self-life, rich, complex with a little tang. Great for fresh eating, salads, drying or making sauces. 70 -75 days

### **True Colors** 🇨🇦

True colors was created by Karen Oliver of Ladysmith, Canada from a cross of Ludmilla's Pink Heart and Captain Lucky. True colors will blow you away with its taste and beauty that almost seems surreal. Strong and prolific indeterminate, wispy potato-leaf plants produce 8 to 14 oz. beautiful ox-heart fruits with very attractive yellow, green and pink marbling inside and yellow-green-purple coloring outside. Excellent, rich, very meaty tomato with few seeds. When fully ripened, they are sweet, fruity, firm and juicy. It's a home-run whether used for fresh eating, caprese salads, sandwiches, sauces and soups. This is a masterpiece and a must grow, resist cracking and cat-facing. 75 days.
